Transform your smile with our
Smile Makeover
Options

Smile Makeovers

Media coverage on smile makeovers has risen to an unprecedented level and the effects of this investment can transform lives.

To help create your perfect smile we offer a smile makeover service. This service is a personalised analysis that reflects your wishes for your smile. A range of treatments are available to achieve that perfect smile. We will be able to advise you of the best treatment for you at the smile makeover consultation.

Straighten your teeth the invisible way with Clear Aligners from only £1895.00

This is a cutting-edge orthodontic treatment . Its innovative design uses a series of clear aligners in place of traditional metal braces. The custom made aligners have been proven effective in both clinical research and practices worldwide. They can be used to correct a variety of problems, including overly crowded teeth and widely spaced teeth.

Clear aligners have no metal bands or wires. They are clear and nearly invisible. Most people will never know you're straightening your teeth - unless you tell them

For more information visit www.clear-aligner.eu

Restore your smile with Dental Implants only £1495.00

Dental Implants are a permanent solution to missing teeth. An implant acts like the root of your teeth, it feels very natural and secure when you bite down on it. Even hard foods can be chewed effectively. Dental implants are small titanium screws that are fixed into the jawbone, which acts like the root of a natural tooth to allow for crown and bridgework. They look, feel and function like your natural teeth.

Have a sparkling smile with Tooth Whitening only £199.00

We can give you the beautiful, white smile you have always dreamed of. You will be delighted with the results from our tooth whitening options.....tooth whitening can change the way you look and feel and people will notice the difference.

Tooth whitening is a successful and simple method of lightening the colour of your teeth. Teeth yellow with age but drinking tea, coffee and colas all speed up this process. Smoking and other staining agents will also contribute to darkening of the teeth. The whitening technique removes the staining agent that has penetrated deep within the tooth. We offer custom made trays for home whitening and in-surgery power whitening.

Have a Hollywood smile with Porcelain Veneers only £375.00

If you are unhappy with your smile because your teeth are uneven, discoloured, chipped or crooked, porcelain veneers offer a natural looking option without the need for orthodontic work or braces. Veneers are porcelain "shells" which are shaped to fit over your existing teeth. The result is a straight, even smile with teeth which are consistent in shape and colour with little or no work being needed on the tooth itself..

Achieve a perfect smile with Full Ceramic Crowns only £450.00

We can cover unsightly teeth using Ceramic Crowns . Crowns are used to restore teeth that are heavily filled, discoloured, broken or crooked. Crowns normally cover the whole tooth - they are made to improve your smile and blend in with your natural teeth.

Correct your smile with Natural Coloured fillings only £95.00

Unsightly metal or discoloured fillings can now be replaced by natural coloured fillings that closely match your natural teeth to improve the look of your smile.
